BASELINE & BOOST

BASELINE

- ✓ Basic supply with multiple micronutrients for lasting nutritional support^{*(1)}

BOOST

- ✓ It is recommended^{*(2)} to take BOOST in addition to BASELINE up to four weeks:

prior to and after a surgical intervention

prior to a sporting competition

prior to and during a long-haul flight

prior to and during the common cold season

DOSAGE

- ✓ Each sachet contains the intended dose
- ✓ After breakfast, swallow the contents of one sachet per day with a glass of water. Swallow the contents whole and do not chew

HANDLING

- ✓ One package contains 30 sachets which corresponds to one month's ration
- ✓ Easy to take with you when traveling and on vacation

CHARACTERISTICS

- ✓ The sachets are opaque and airtight
- ✓ The beads have a gastric juice resistant coating and because of their construction and optimized release of the ingredients. It's free from auxiliary substances and additives as well as preservatives and sweeteners

^{*(1)} Vitamin A, Vitamin C, Vitamin D, Zinc, Vitamin B6, Vitamin B12 contribute to normal immune system function

^{*(2)} Recommended by the SWISS BIOHEALTH CONCEPT
